ABOUT

I like watching movies, reading astronomical articles, and being interested in technology. In my spare time, I improve myself by learning new things. I'm on my way to becoming a sought-after developer.

EXPERIENCE

Freelance (2021 - Present)

I code the corporate, e-commerce, ERP type designs I receive and hand them over to the backend developer.

EXPARGO LTD (Jul 2022 - Present)

Currently, I am involved in improving the company's existing websites, updating and providing support for its mobile applications.

Vitanur (Dec 2022 - Present)

As a Front-End Developer, I develop and provide support for the user side of websites. I develop user interfaces using React.js.
